

Company:

SoftElegance is a **global IT services and software development company** founded in 1993. Over the past two decades, SoftElegance has been providing outstanding IT consulting services to a variety of clients in **North America** and **European Union**.

Companies ranging from small and medium to Fortune 500 use SoftElegance's services for implementation of **SaaS systems, sophisticated portals, engineering applications, business processes automation solutions**, and more.

SoftElegance offers software development services across **diverse industries** and brings a range of solutions and products that enhance client company's performance and competitiveness.

Industries:

SoftElegance has created software solutions for **dozens of clients** on approximately a **hundred of projects**.

SoftElegance has **deep domain expertise** in creating software solutions for the following industries:

Oil & Gas;
Manufacturing;
Financial;
Health Care;
Retail;
Human Resources Management;
And more...

Services:

SoftElegance offers a wide range of IT consulting services that help our clients to build innovative software solutions that enhance their organizations.

- ▶ **Custom software development services**, which include full development lifecycle, from inception to final delivery and post go-live support and enhancements. SoftElegance is partnering with some clients for as long as 10-15 years already, providing excellent service in maintaining their business and **mission critical systems**.
- ▶ **Dedicated development teams**, which is a proven business model for outsourcing, as it combines advantages of availability of **highly skilled** and **cost-efficient** offshore resources with the full client's control over project management and budget.
- ▶ A variety of **IT consulting services**, like **technical architecture assessments, vendor's evaluations**, and **technology research** tasks.

When you work with SoftElegance, you benefit from our **deep expertise** in up-to-date technology, and also gain a strategic partner that helps you to meet the most demanding enterprise needs.

Technologies and Platforms:

SoftElegance's software architects, project managers, developers, QA managers, and testers use the most **up-to-date technologies, platforms, and approaches:**

- ▶ Software-as-a-Service, Service-Oriented Architecture, Single-page applications;
- ▶ .NET Framework: ASP.NET, MVC, WPF, and Web forms;
- ▶ MS SQL Server and various BI tools;
- ▶ Integration and Messaging platforms, Enterprise Service Bus;
- ▶ Hosting solutions: Amazon Web Services, Windows Azure, Virtual and Dedicated Servers;
- ▶ HTML/CSS, JavaScript libraries, Front-end frameworks, mostly AngularJS;
- ▶ Diverse issue tracking, project management and version control systems;
- ▶ And more...

SoftElegance applies industry's best practices, methodologies, and guidelines (**Agile, RUP, CMMI**) to internal work flows and project management, to deliver software solutions on time, with high quality, and within a budget.

IF YOU CAN DREAM IT, WE CAN BUILD IT
